

FISHING LINE RECYCLING BINS

These are monofilament fishing line recycling bins! Fishing line is **non-biodegradable**. Unused line left in or near the water becomes a hazard to all wildlife living near or in the waterways. Please utilize these bins to properly recycle all fishing line.

Be part of the solution: Please remove ALL HOOKS and LURES prior to putting fishing line into these containers. All fishing line is a hazard to wildlife if you see any or have any fishing line don't throw it on the ground, pick it up and place it into these bins to prevent accidents like these!

Why use them? All fishing line recycled in these containers are sent to Berkley and is melted to plastic and reused.
